

**Verizon New England Inc.
d/b/a Verizon Massachusetts**

Commonwealth of Massachusetts

D.T.E. 03-60

Respondent: Lynelle Reney

Title: Director – Customer Service

REQUEST: AT&T Set 1

DATED: November 25, 2003

ITEM: AT&T 1-7 For each CO listed in response to **Error! Reference source not found.**, identify each collocation arrangement in that CO, by stating the following with respect to the collocation arrangement:

- (a) The name of the entity to which the collocation arrangement is provided;
- (b) The type of collocation arrangement (i.e. caged, cageless, virtual);
- (c) The size of the collocation arrangement (if virtual, the number of equipment frames);
- (d) The date on which the collocation arrangement was first provided, and the name of the entity to which it was provided;
- (e) The date on which the collocation arrangement was last augmented (if applicable);
- (f) Whether the collocation arrangement has ever been used for gaining access to Verizon's unbundled loops and, if so, whether it currently is being used for such purpose;
- (g) The number of Verizon loops, by type (e.g., analog UNE, DS-1 UNE, analog special access, DS-1 special access, etc.) provisioned to each such collocation arrangement during:
 - (i) second quarter, 2003
 - (ii) first quarter, 2003
 - (iii) fourth quarter, 2002
 - (iv) third quarter, 2002
 - (v) second quarter, 2002
 - (vi) first quarter, 2002
 - (vii) calendar year, 2001
 - (viii) calendar year, 2000; and

(h) The number of cross connects existing between Verizon's main distribution frame and the collocation arrangement as of the end of the following periods:

- (i) second quarter, 2003
- (ii) first quarter, 2003
- (iii) fourth quarter, 2002
- (iv) third quarter, 2002
- (v) second quarter, 2002
- (vi) first quarter, 2002
- (vii) calendar year, 2001
- (viii) calendar year, 2000

**SUPPLEMENTAL
REPLY:**

- (a) Please see the attached file "MA ATT Exhibit 17-7 Revised," which has been updated to include information on Competitive Access Transport Termination (CATT) arrangements in-service in Verizon MA wire centers. The supplemental attachment contains proprietary information and is being provided to the Department and to parties in accordance with the terms of the Department's Protective Order.
- (b) Please see attached "MA ATT Exhibit 1-7 Revised."
- (c) Please see attached "MA ATT Exhibit 1-7 Revised."
- (d) Please see attached "MA ATT Exhibit 1-7 Revised."
- (e) Please see attached "MA ATT Exhibit 1-7 Revised."
- (f) Verizon does not track the requested information by collocation arrangement, thus the requested information would require a burdensome special study. Verizon provides the capacity for CLECs to order voice grade services, including UNE loop services through collocation arrangements. The customer of record for UNE loops is the CLEC.
- (g) The information requested is not available for the time periods requested. In addition, Verizon MA objects to this request on the grounds that the question is overly broad and asks for information that is not relevant to the impairment analysis at issue in this proceeding and is not reasonably calculated to lead to the discovery of admissible evidence.
- (h) Please see attached "MA ATT Exhibit 1-7 Revised." Cross connect data prior to 1st quarter 2003 is not available.
